Custom You can select the software components to install 5) Select products and components: Enter the components to be installed by selecting or deselecting the corresponding boxes.. And note that all information I receive from P6 DB gets How do I configure WebLogic Server that I could get data from Primavera DB (Professional) not P6.. It is very frustrating The WebLogic Server installer contains WebLogic Server and related examples, workshops and related examples, as described in Installable Product Components, and JRockit SDK and Sun JDK (for Windows and Linux platforms only).

4 I doing a system boot 5 Open a command prompt and enter Result: It is now set.
